

HAPPYCO ENGAGEMENT 2015

QUALITY AND ANTI-DOPING HAPPYCO VALUE CHART

As a leader in natural nutrition products, Zannini Laboratories have done of their global quality the first rule to be respected. Indeed, consumers of these kind of products are becoming more and more aware of this issue and require high-performance products, but with no side effects on the health and non-doping effects.

OUR INTERNAL RULES:

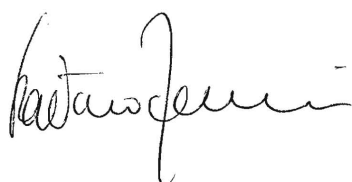

1. Global quality guarantee, not only in the production phase, but also in the whole value chain, from the research to the commercialization of the products.
2. The choice of all raw materials is rigorously linked to pharmaceutical procedures and characteristics, particularly for natural ingredients, sometimes not well controlled at the origin.
3. All raw materials are controlled for the presence of pesticides, heavy metals, non-transgenic origin, bacteria and the right botanic origin
4. All raw materials have to be guaranteed free of any doping substances, following the International WADA Codes.
5. All products of Zannini Laboratories are notified and approved before sales by the national French Control Agency (DGCCRF) and by the similar local Authorities in all Europe Countries.
6. All products of Zannini Laboratories comply and are in accordance with the World Anti-Doping Association 2013 code for being free from and do not contain :
 - A. **ANABOLIC ANDROGENIC STEROIDS (AAS)**
 - B. **OTHER ANABOLIC AGENTS, INCLUDING BUT NOT LIMITED TO:**
 - a. *Clenbuterol, selective androgen receptor modulators (SARMs), tibolone, zeranol, zilpaterol.*
